

Networked QUORION QTouch 10 POS Systems Help Expand CONNYLAND's Restaurant Customer Throughput to 3000 Guests per Day

Connyland is an amusement park in Lipperswill, Switzerland. The park offers spectacular sea lion shows, trained parrots, a Mammoth tree, a wild water ride as well as their famous "Cobra" roller coaster and jungle adventures. The entire venue is roofed over to allow family fun round the clock.

The Challenge

In response to the re/new construction of our self-service restaurant into a significantly larger free-flow system with throughput of 3000 guests per day, it became necessary to upgrade our POS system as well.

The Answer

Since we have worked with Gartmann Kassensysteme AG (GKS AG) for years already, we decided to select the above mentioned QUORION QTouch 10 all-in-one POS system, which Mr. Gartmann recommended to us. He installed 3 workspaces with a scale each and networked them all via LAN.

Mr. A. Gartmann consulted us from A-Z prior to the installation. He programmed the POS systems to meet our exact needs, competently installed all 3 workspaces, and trained the responsible employees intelligently. We were practically able to go live without issues or beginner problems.

Since we took over the QTouch 10 POS system during the start of the 2013 season from GKS AG, we have worked with it without any hassles or problems. The POS system has performed exceptionally and proven itself on many occasions. We are very happy with our choice. We can recommend this POS system and Gartmann Kassensysteme AG, a.k.a. Mr. A. Gartmann, without reservations at any given time.
